### Subject Index 2011

- A randomised controlled trial assessing the effect of adding clarithromycin to Rifampicin, ofloxacin and minocycline in the treatment of single lesion paucibacillary leprosy in Agra District, India, 46
- A study on inclusion of leprosy in the curricula of pre-service health training institutions in Uganda, 296
- Acceptability of chemoprophylaxis for household contacts of leprosy patients in Bangladesh: a qualitative study, 178
- Adverse effects of Multi-drug therapy in leprosy, a two years’ experience (2006-2008) in tertiary health care centre in the tribal region of Chhattisgarh state (Bastar, Jagdalpur), 17
- Anti-PGL-1 seroepidemiology in leprosy cases: household contacts and school children from a hyperendemic municipality of the Brazilian Amazon, 358
- Azathioprine as a steroid sparing agent in leprosy Type 2 reactions: Report of nine cases, 304
- Bilateral medial fingernail dystrophy as a presenting feature in a patient with leprosy, 74
- Changes in the size and number of skin lesions in PB leprosy on treatment and follow-up, 244
- Childhood leprosy in a tertiary-care hospital in Delhi, India: A reappraisal in the post-elimination era, 259
- Chromoblastomycosis in a case of borderline lepromatous leprosy with recurrent Type II lepra reaction, 310
- Clinical, bacteriological and histopathological study of 62 referral relapse cases between Jan 2004 and Dec 2009 at the Foundation for Medical Research, Mumbai, 235
- Community-based needs assessment of leprosy patients in Chamrajanagar District, Karnataka, India, 286
- Comparison of three immunological tests for leprosy diagnosis and detection of subclinical infection, 389
- Cytokine responses to *Mycobacterium leprae* unique proteins differentiate between *Mycobacterium leprae* infected and naïve armadillos, 422
- Detection of mutations in *folP1*, rpoB and gyrA genes of *M. leprae* by PCR-direct sequencing – A rapid tool for screening drug resistance in leprosy, 36
- Development of a Mouse Foot Pad Model for detection of sub-clinical leprosy, 432
- Does clofazimine prevent Erythema Nodosum Leprosum (ENL) in leprosy? A retrospective study, comparing the experience of multibacillary patients receiving either 12 or 24 months WHO-MDT, 213
- Do we need laboratory based research any longer?, 338
- Efficacy of Temporalis Muscle Transfer for correction of lagophthalmos in leprosy, 279
- Future for laboratory based research for leprosy, 330
- Immunogenicity of *Mycobacterium leprae* unique antigens in leprosy endemic populations in Asia and Africa, 445
- In vitro and skin lesion cytokine profile in Brazilian patients with borderline tuberculoid and borderline lepromatous leprosy, 25
- Interrogating leprosy 'stigma': why qualitative insights are vital, 91
- Keep the faith – leprosy still needs new diagnostic tools and laboratory research, 340
- Leprosy and stigma in the context of international migration, 147
- Leprosy in Eastern Nigeria and the social history of colonial skin, 124
- Leprosy Statistics 2009: some thoughts, 87
- Leprosy Stigma: Ironing out the creases, 103
- Leprosy, the key to another kingdom, 155
- Leprosy, the need to employ evidence-based medicine in control policies around the world, 210
- Letter to the Editor
  - Pain in leprosy patients: shall we always consider as a neural damage?, 319
  - Reasons for interrupting multidrug therapy against leprosy: the patients’ point of view, 78
  - Restoring Dignity: community arts in leprosy control, 316
  - Take suicide prevention seriously in leprosaria, 322
- New insights and tools to combat leprosy nerve damage, 334
- News and Notes
  - Leprosy: Science working towards dignity, 86
  - Working to overcome the global impact of neglected tropical diseases, 86
- Nuancing 'leprosy stigma' through ethnographic biograpy in South India, 109
- Perceptions, health seeking behaviour and access to diagnosis and treatment initiation among previously undetected leprosy cases in rural Maharashtra, India, 222
- Postgenomic *Mycobacterium leprae* antigens for cellular and serological diagnosis of *M. leprae* exposure, infection and leprosy disease, 402
- Pride and Prejudice – Identity and stigma in leprosy work, 135
- Qualitative Assessment of Medication Adherence at an Urban Leprosy Outpatient Clinic in Hyderabad, India, 70
Reflections on the new WHO leprosy indicator: The rate of new cases with Grade 2 disabilities per 100,000 population per year, 3

Relapse study in smear positive multibacillary (MB) leprosy after 1 year WHO-multi-drug therapy (MDT) in Cebu, Philippines, 65

Responding to the socio-economic implications of leprosy, 98

Serological detection of leprosy employing *Mycobacterium leprae* derived serine-rich 45 kDa, ESAT-6, CFP-10 and PGL-1: a compilation of data from studies in Indian populations, 383

Serum cytokine profile in leprosy and its correlation with clinic-histopathological profile, 371

Social implications of leprosy in the Netherlands - stigma among ex-leprosy patients in a non-endemic setting, 168

Social participation of people affected by leprosy after discontinuation of multidrug therapy, 55

The activity of several newer antimicrobials against logarithmically multiplying *M. leprae* in mice, 253

The role of *Mycobacterium leprae* Phenolic Glycolipid I (PGL-I) in Serodiagnosis and in the pathogenesis of leprosy, 344

Trends in new leprosy case detection over 57 years (1952-2008) in Yuxi, Yunnan Province of Southwest China, 6

What is the evidence that the putative *Mycobacterium lepromatosis* species causes diffuse lepromatous leprosy?, 205

WHO disability grade does not influence physical activity in Brazilian leprosy patients, 270

Workshop Reports

Report on the Sixth Meeting of the IDEAL (Initiative for Diagnostic and Epidemiological Assays for Leprosy) Consortium held in Beijing, China on 23-25 August 2010, 80

Report of the Stigma Research Workshop for the development of scientific consensus papers and field guidelines on health-related stigma, held in Amsterdam, the Netherlands, from 11-14 October 2010, 188

Subject Index 2012

A comparison of the change in clinical severity scale score and a retrospective physician assessment of neurological outcome in individuals with leprosy associated nerve function impairment after treatment with corticosteroids, 154
A multi-centre study on quality of routine data collection on relapses, 339
A research strategy to develop new tools to prevent leprosy, improve patient care and reduce the consequences of leprosy, 6
An overview of training and development needs, 2, 127
Analysis of newly detected leprosy in Sohag Governorate, Upper Egypt, 2004-2008, 71
Anaplastic large cell lymphoma and lepromatous leprosy: a rare coexistence, 104
Assessing and improving adherence with multidrug therapy, 282
Bacteriological results and leprosy reactions among MB leprosy patients treated with Uniform Multidrug Therapy in China, 164
Book Review – Leprosy: Science Towards Dignity, 320
Borderline-lepromatous leprosy manifesting as granulomatous mastitis, 202
Chemotherapy of leprosy: An interpretive history, 221
Chemotherapy of leprosy has changed (almost) everything, 245
Dapsone hypersensitivity syndrome among leprosy patients in China, 369
Developing new MDT regimens for MB patients: Time to test ROM 112 month regimens globally, 241
'Double mainstreaming': including people affected by leprosy in poverty reduction programmes, 124
Drug-resistant leprosy: Monitoring and current status, 269
Effectiveness of social skills training for reduction of self-perceived stigma in leprosy patients in rural India - a preliminary study, 80
Empowerment assessment tools in people with disabilities in developing countries. A systematic literature review, 129
Evaluation of leprosy surveillance system in the Amazon region, Brazil, 2001-2007, 52
Florid reactive periostitis ossificans of long bones and digits associated with reaction in a patient with leprosy, 98
Gynaecothelia – A common yet ignored sign of multibacillary leprosy in males: A case series with review of literature, 383
Hemolytic anemia in patients receiving daily dapsone for the treatment of leprosy, 305
Informed consent in leprosy studies 325
Lack of effects of the TNF-α and IL-10 gene polymorphisms in Mexican patients with lepromatous leprosy, 34
Leprosy among migrant workers: ensuring proper treatment, 334
Leprotic neuropathy misdiagnosed as chronic inflammatory demyelinating polyneuropathy, 93
Leprosy figures: no time for self-complacency, 3
Leprosy Mailing List, 330
Letter to the Editor
   In response to ’An overview of training and development needs’ (Ebenso), 393
Limitations in activities of people affected by leprosy after completing multidrug therapy: application of the SALSA scale, 172
Motives and determinants for residence change after leprosy diagnosis, central Brazil, 16
News and Notes
   The Padma Shri Award, 218
Nodular secondary syphilis simulating lepromatous leprosy, 388
Obituaries
   R. Ganapati, 113, 115
   L. Hogerzeil, 322
Ofloxacin multicentre trial in MB leprosy FUAM-Manaus and ILSL-Bauru, Brazil, 261
One year follow up of a cohort of suspected leprosy cases: findings from a Leprosy ’Selective Special Drive’ in Gadchiroli District, Maharashtra, India, 64
Patient-related factors predicting the effectiveness of rifampicin chemoprophylaxis in contacts: 6 year follow up of the COLEP cohort in Bangladesh, 292
Patterns and trends of leprosy in Mexico: 1989-2009, 184
Persisting leprosy transmission despite increased control measures in an endemic cluster in Brazil: the unfinished agenda, 343
Prevalence and characteristics of neuropathic pain in the people affected by leprosy in China, 195
Primary results of clinical trial for Uniform Multidrug Therapy for leprosy patients in Brazil (U-MDT.CT-BR): reactions frequency in multibacillary patients, 308
Relapses in multibacillary leprosy patients: A retrospective cohort of 11 years in Colombia, 247
Restless legs syndrome in people affected by leprosy, 362
Revalidation of various clinical criteria for the classification of leprosy - A clinic-pathological study, 353
Scales for measuring everything, 119
The 100th Anniversary of Armauer Hansen’s (1841–1912) Death, 407
The different challenges in leprosy around the world, 1
The importance of neglected tropical diseases in sustaining leprosy programmes, 121
The pattern of bacterial isolates and drug sensitivities of infected ulcers in patients with leprosy in ALERT, Kuyera and Gambo Hospitals, Ethiopia, 40

Workshop Report
International workshop on erythema nodosum leprosum (ENL) – consensus report; the formation of ENLIST, the ENL International Study Group, 395
The prevention of leprosy related disability as an integral component of the government health delivery programme in Myanmar, 205

The production of social discourse on Hansen’s disease and health education materials in Brazil: A skin patch as something harmless or a serious disease?, 24
Trigeminal trophic syndrome complicating a case of borderline tuberculoid leprosy, 108
Type 2 reaction without erythema nodosum leprosum masquerading as lymphoma, 377
