Erratum

In the June 2007 issue of *Leprosy Review*, the caption for the photograph was wrong. The correct caption should have been “Dr. Mujibur Rahman palpating the radial cutaneous nerve of a leprosy patient in Shodhur Clinic, Sirajgonj, Bangladesh”. We apologise for this error, and for any consternation this may have caused.

We also apologise that on the Contents page the Workshop Report on the use of Chemoprophylaxis in the control of leprosy held in Amsterdam, the Netherlands on 14 December 2006, the second author’s name was corrupted. It should have read M.I. Bakker.
