

Event Project Volunteer Role Description

Are you interested in event management, fundraising, or international development? We are looking for enthusiastic volunteers with an interest in international charities to organise fundraising and awareness events.

Over the course of several months (we suggest three, although this is entirely flexible), we will support you to plan, organise, and put on your own fundraising or awareness event to help us in the fight to beat leprosy.

Leprosy is a neglected tropical disease and as such, doesn't get the attention that it desperately needs. It's curable if treated early, yet there are an estimated 3 million people living undiagnosed, which can lead to terrible disabilities and have a devastating impact on lives.

We need your help to raise funds and awareness. It could be a pub quiz, an information stand at an event, a fashion show, or a dog walk – the possibilities are endless. We will put you in touch with your local Community Fundraiser, and they will support every step of the way with holding your event. At the end of it, you will have an event in your portfolio that you managed from start to finish, and you will have helped change the lives of people affected by leprosy.

If you are interested in finding out more and would like to speak to your local fundraiser, please get in touch today at volunteering@lepra.org.uk.
